Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 24 November 2004.
- 2a) ☒ This action is **FINAL**. 2b) ☐ This action is non-final.

DETAILED ACTION

Claim Rejections - 35 USC § 103

1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

2. Claims 1-8, 10-20, 23-27, 29, and 30-39 are rejected under 35 U.S.C. 103(a) as being unpatentable over Epstein et al. (U.S. 5,951,589) in view of Dieck et al. (U.S. 6,425,909).

Epstein et al discloses the claimed invention in figures 18, 19, and 24, except for a filter element attached to the catheter shaft (302).

However, Dieck et al teaches in figure 4, that it is know in the surgical art to have a filter element (4) attached to the catheter shaft (8).

It would have been obvious to one of ordinary skill in the art at the time the invention was made to modify the Epstein's membrane (311) by substituting for the filter element as taught by Dieck et al in order to remove plaque and other material which can obstruct blood vessels.

Response to Arguments

3. In response to applicant's argument that there is no suggestion to combine the references (Epstein et al in view of Dieck et al), the examiner recognizes that obviousness can only be established by combining or modifying the teachings of the prior art to produce the claimed invention where there is some teaching, suggestion, or

motivation to do so found either in the references themselves or in the knowledge generally available to one of ordinary skill in the art. See *In re Fine*, 837 F.2d 1071, 5 USPQ2d 1596 (Fed. Cir. 1988) and *In re Jones*, 958 F.2d 347, 21 USPQ2d 1941 (Fed. Cir. 1992). In this case, the applicant acknowledges that Epstein et al reference clearly teaches that membrane 311 made of permeable material for providing multiple uses of the device. Upon considering the entire disclosures of Epstein et al and Dieck et al, the Examiner disagrees with Applicant's remarks Epstein et al would not be motivated to substitute the filter of Dieck et al device because doing so would appear to destroy the Epstein et al device and has maintained the grounds of rejection under 35 U.S.C. 103(a) as being unpatentable over Epstein et al. in view of Dieck et al. that it would have been obvious to one of ordinary skill in the art at the time the invention was made to modify the Epstein's membrane (311) by substituting for the filter element as taught by Dieck et al in order to remove plaque and other material which can obstruct blood vessels, for the same reasons as set forth in the previous office action, paragraph 2.

Conclusion

1. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any

extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
